# Installing Kurzweil 3000 v10 Remote Client into Windows PCs

## Using the Kurzweil 3000 Remote Client

### PROGRAM RATIONALE

- ❖ The Kurzweil 3000 Network Remote Client CD provides you with a fairly convenient way to install Kurzweil the 3000 Network Edition onto your home PC, and to borrow a license to run the software for a specific period of time.

Once the expiry date is reached, the client software prompts you to request a new license code that will reactivate Kurzweil 3000 for another period of time. As long as this project is considered active, you may email the System Code to the Network Librarian, who will then return an email message containing the activation code required to re-activate the software.

The Librarian is able to grant different types of licenses that allow access to differing features within Kurzweil 3000.

The most plentiful licenses are **Kurzweil 3000 LearnStation** licenses, (sometimes referred to as the “Read-Only” edition) which allow existing Kurzweil 3000 documents to be opened, read aloud, marked up and explored using all the Reference and Study Skills tools. These LearnStation licenses will typically be granted to a guest user for 1 month.

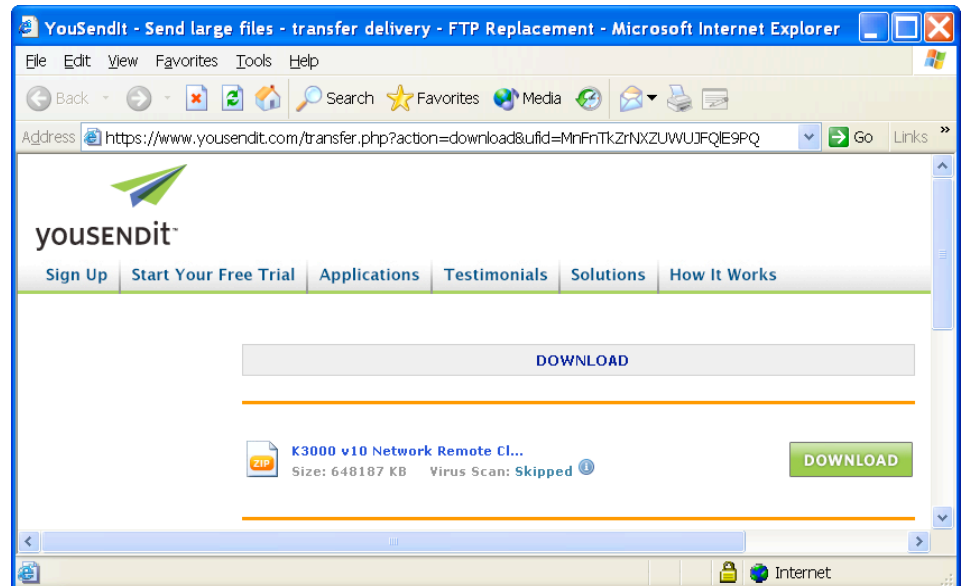

The **Kurzweil 3000 Professional Colour** licenses allow users to perform several tasks that the Kurzweil 3000 LearnStation software can’t do including:

- A) Operate a scanner.
- B) Convert the scanned files into Kurzweil 3000 files.
- C) Allow users to use the “Zone Editing” feature.
- D) Open and convert Adobe Acrobat PDF files into Kurzweil 3000 files.

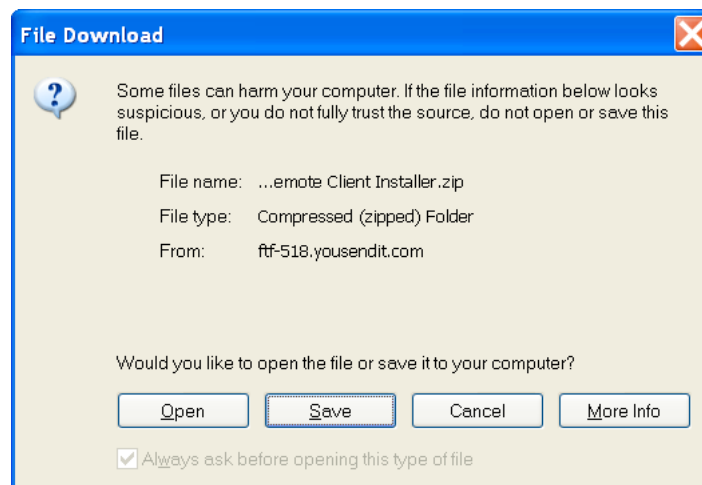

A small quantity of these licenses are available, and the short 48 hour loan period is intended to allow a user with an approved scanner enough time to scan assignment-related books and other printed material. Once the scanning is done, and the Professional license has expired, the user may request a LearnStation license in order to continue reading and working with the scanned files.

## DOWNLOADING THE REMOTE CLIENT SOFTWARE

1. A link to the K3000 v10 Network Remote Client Installer.zip file will be emailed to you, but you can also click the link below to download the installer:
2. [Click here to download the K3000 v10 Remote Network Client Installer](#)
3. Click the green "Download" button to start the file transfer.

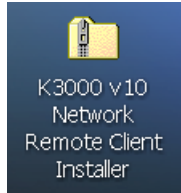

4. Click the "Save" button to save the file to your desktop or any other folder you are comfortable using. Do not click the "Open" button.

Depending on the speed of your internet connection, the download could take half an hour or longer.

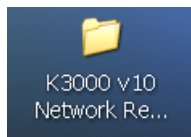

The installer will download in compressed .zip format and you will need to extract the installer before you can proceed with the installation.

5. **Right-click the "K3000 v10 Network Remote Client Installer.zip" file and select "Extract All".**
6. **Follow the "Extraction Wizard" steps onscreen to finish extracting the installer folder.**

### Installing on a Windows XP PC:

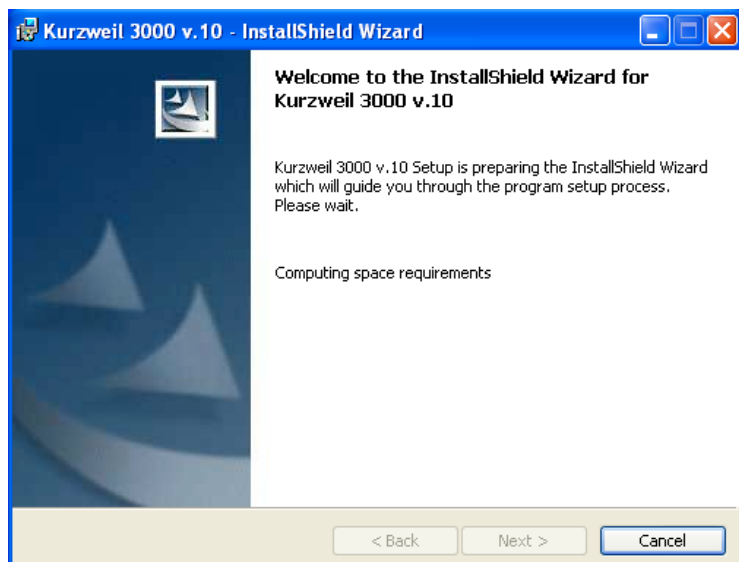

- ❖ Follow the instructions below to install the Kurzweil 3000 Remote Client software. If your computer is equipped with the **Windows Vista** operating system, please skip this section and begin at the section labelled "**If you have a Windows Vista PC**".

setup  
Setup Launcher  
Kurzweil Educational Systems

1. **Double-click the "K3000 v10 Network Remote Client Installer" folder to open it up.**
2. **Double-click the "setup" icon.**

The install program will start, and you will see the following dialogue window on your computer screen:

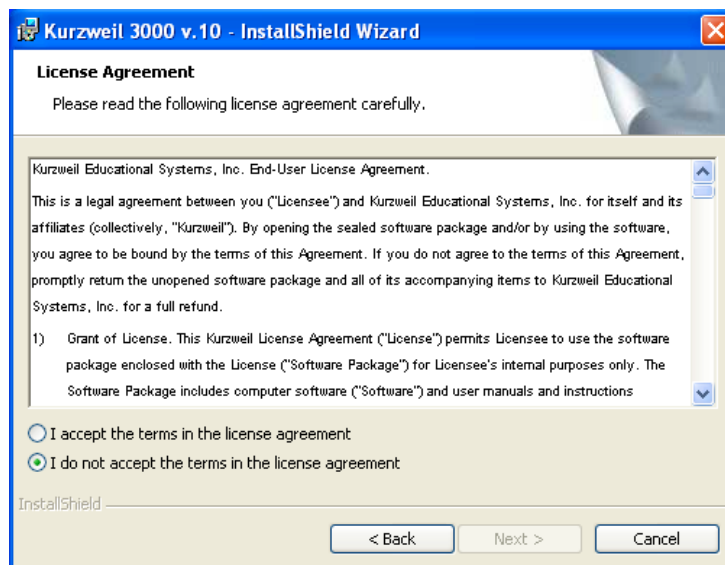

3. **Continue the installation of the software by single-clicking the cursor on the Next button when the following dialogue window appears on your computer screen:**

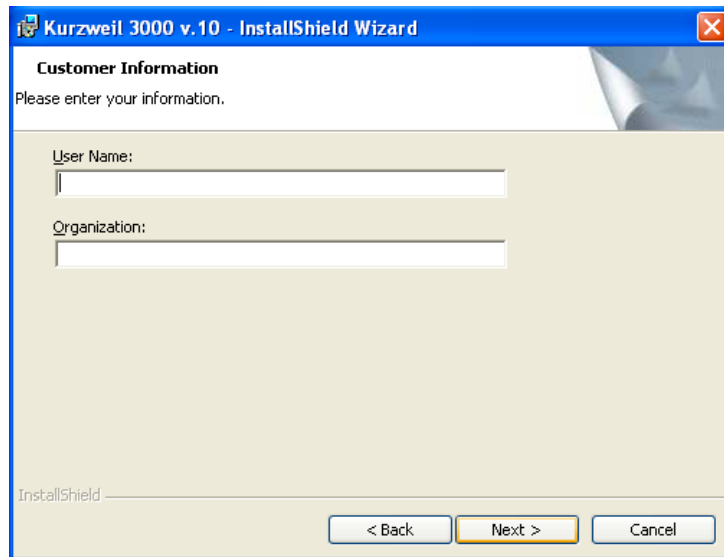

4. **Prior to completing the installation process you are required to accept Kurzweil Education System's License Agreement.**

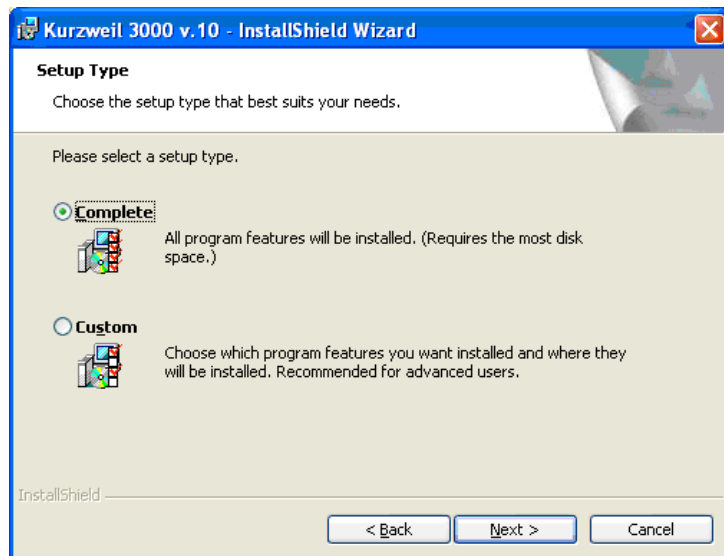

**Once it is displayed on the screen, single-click the cursor in the radio button entitled "I accept the terms in the license agreement" and then single-click the cursor on the Next button of the dialogue window:**

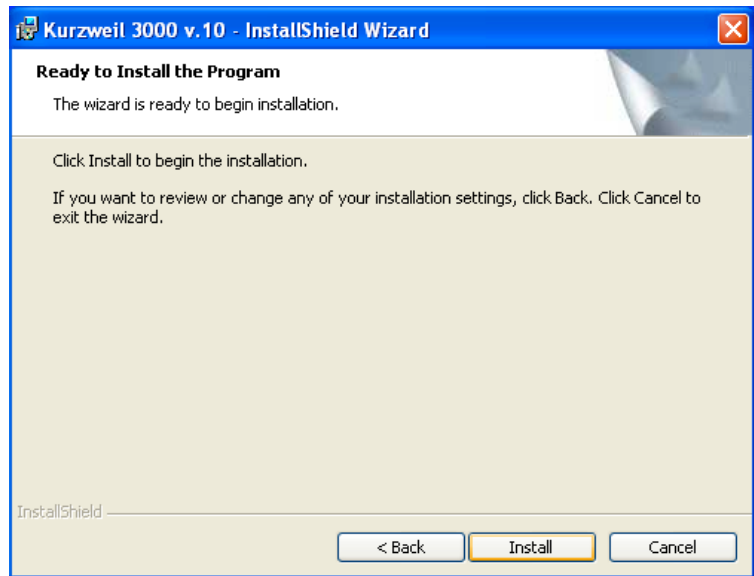

5. **Enter your name in the text field entitled "User Name:" and then single-click the cursor on the Next button of the dialogue window to go to the last stage of the installation process.**

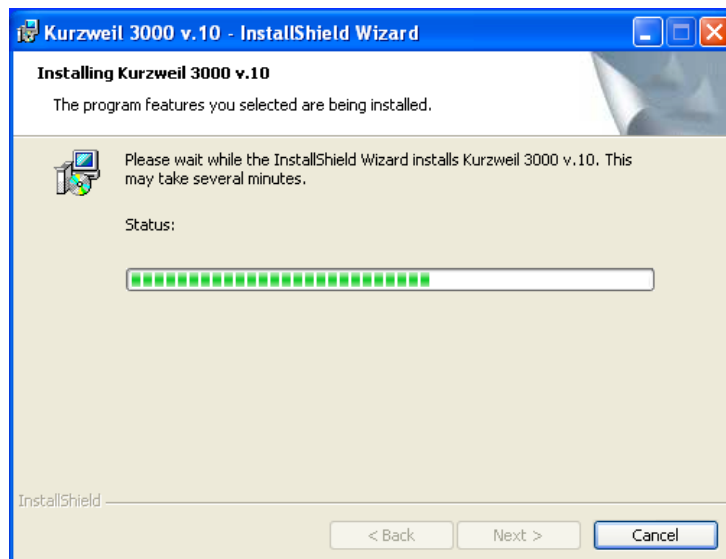

6. Continue the installation of the software by single-clicking the cursor on the Next button when the following dialogue window appears on your computer screen:

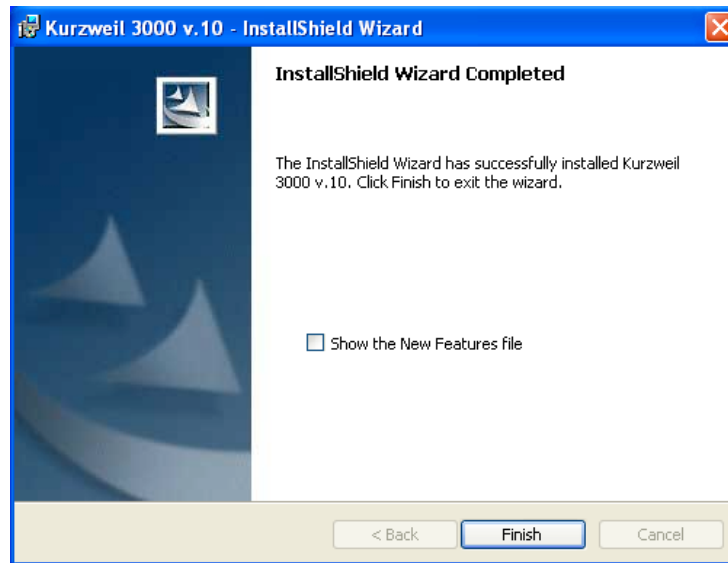

7. Single-click the cursor on the Install button of the dialogue window to complete the installation process.

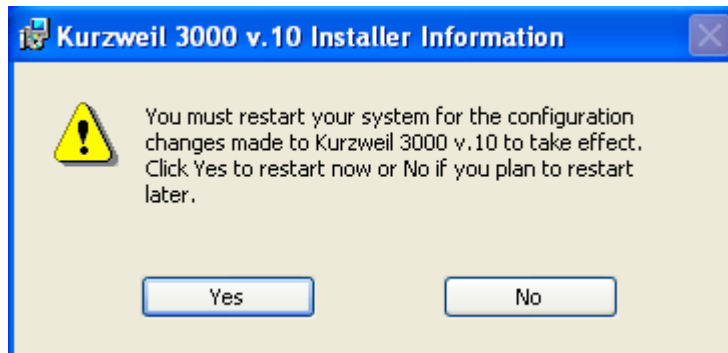

8. You will see the following dialogue window on your computer screen while the InstallShield wizard finishes installing the Kurzweil 3000 remote client program onto your computer:

9. When the installation process is complete, single-click the cursor on the Finish button to exit the installation process.

10. It is important that you single-click the cursor on the Yes button of this dialogue window to make sure that the computer's system undergoes the necessary configuration changes.

11. When your computer restarts the following three icons should appear on the desktop window of your computer:

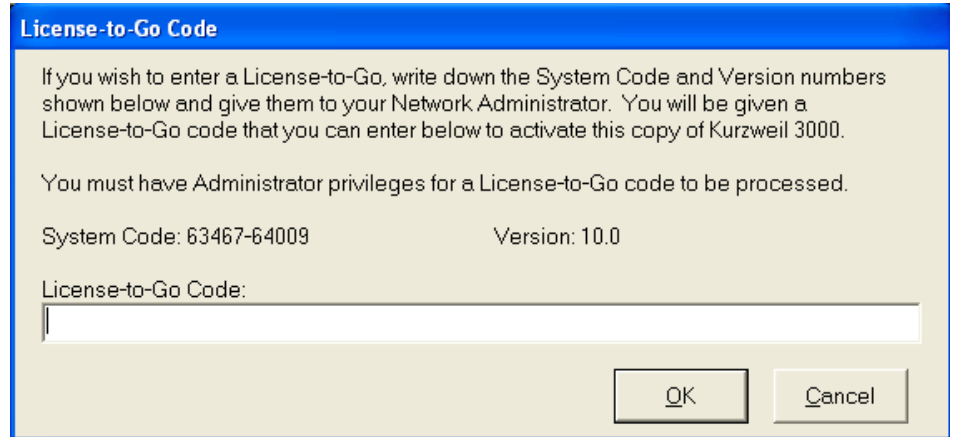

## STARTING K3000 FOR THE FIRST TIME

---

12. Open the Kurzweil 3000 program by clicking the cursor on the software's icon that is on the desktop window of your computer.

When the following dialogue window appears on your computer screen, write down the 'System Code' that was automatically generated during the installation process.

A screenshot of a Windows dialog box titled "License-to-Go Code". The dialog box has a blue title bar and a light yellow background. It contains the following text: "If you wish to enter a License-to-Go, write down the System Code and Version numbers shown below and give them to your Network Administrator. You will be given a License-to-Go code that you can enter below to activate this copy of Kurzweil 3000." Below this, it says "You must have Administrator privileges for a License-to-Go code to be processed." Then, it displays "System Code: 63467-64009" and "Version: 10.0". Below these, there is a text input field labeled "License-to-Go Code:". At the bottom right, there are two buttons: "OK" and "Cancel".

**License-to-Go Code**

If you wish to enter a License-to-Go, write down the System Code and Version numbers shown below and give them to your Network Administrator. You will be given a License-to-Go code that you can enter below to activate this copy of Kurzweil 3000.

You must have Administrator privileges for a License-to-Go code to be processed.

System Code: 63467-64009      Version: 10.0

License-to-Go Code:

OK      Cancel

Save this 'System Code' for use when you wish to request a Network Code from the VocaLinks Network Administrator in order to activate and use Kurzweil 3000.

Send this 'System Code' to the VocaLinks e-librarian via an e-mail to: [librarian@vocalinks.com](mailto:librarian@vocalinks.com); it is required to generate the Network Licenses that will be used to activate Kurzweil on your computer system.

## REQUESTING A LICENSE-TO-GO CODE TO ACTIVATE KURZWEIL

---

1. Send an e-mail message to the VocaLinks e-librarian: [librarian@vocalinks.com](mailto:librarian@vocalinks.com)

Please include your name and the type of license you are requesting (Kurzweil 3000 LearnStation or Kurzweil 3000 Professional).

Within 24 hours the librarian will email you back a License-to-Go Code

During the project, we will be granting participants a 1 month license for the Kurzweil 3000 LearnStation version. On request we will also allow guest users to borrow a 48 hr. license for the Kurzweil 3000 Professional version, which allows the use of a scanner to capture information

from printed documents, and can also convert .pdf files and other electronic documents into Kurzweil 3000 files.

### **ACTIVATING THE K3000 PROGRAM (XP)**

When you receive the network code in an e-mail from the VocaLinks Network Administrator you are ready to start using Kurzweil 3000.

It will have a format similar to the one illustrated below:

License-to-Go Code:
XGMGY-PXMLG4-WELEFE-TTSZDC-Ross M Lawler

2. Open the Kurzweil 3000 program by double-clicking the cursor on the software's icon that is located on the desktop window of your computer.

3. Enter the Network Code in the text field entitled "License-to-Go Code:" and then single-click the cursor on the **OK** button.

License-to-Go Code	
If you wish to enter a License-to-Go, write down the System Code and Version numbers shown below and give them to your Network Administrator. You will be given a License-to-Go code that you can enter below to activate this copy of Kurzweil 3000.	
You must have Administrator privileges for a License-to-Go code to be processed.	
System Code: 63467-64009	Version: 10.0
License-to-Go Code: <input type="text"/>	
<div>OK Cancel</div>	

4. Kurzweil 3000 will begin working in a fully functional manner; it will display the expiration date and time for the License-to-Go in the Status Bar at the bottom of the Kurzweil 3000 window.

### **DOWNLOAD THE LATEST KURZWEIL 3000 UPDATE (WINDOWS XP)**

❖ Once the software has been installed, you should download the latest update to the Kurzweil 3000 software through an Internet connection.

1. From the "Online" menu select "Updates..."

2. **Select the English 10.04 update and click OK to begin the download.**
3. **Follow the prompts onscreen to complete the update process.**

### **OBTAINING ADDITIONAL NETWORK LICENSE CODES**

---

- ❖ When your initial license expires, you may, with permission from VocaLinks Inc., obtain renewed license network codes by repeating the procedures outlined in the “**Requesting a License-To-Go Code to Activate Kurzweil**” section of this License-To-Go Client Guide.

VocaLinks Inc. reserves the right to end the License-to-Go project without notice. When the project ends all licenses in circulation will expire on their assigned expiry dates.

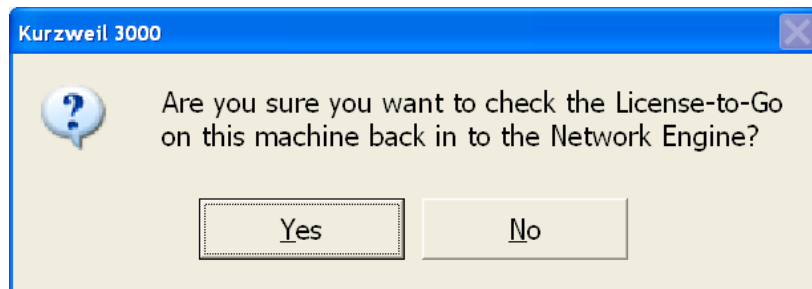

### **RETURNING A NETWORK LICENSE CODE (XP)**

---

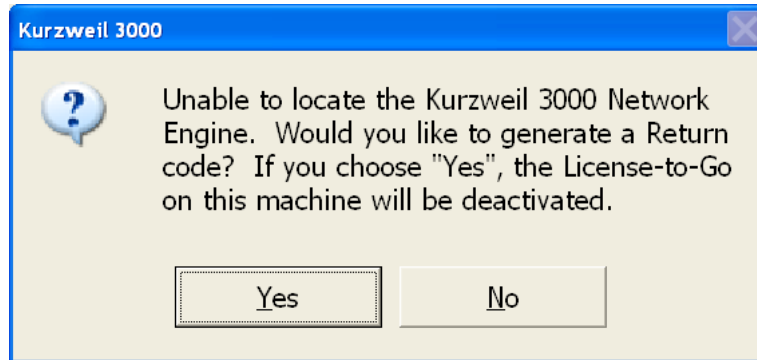

- ❖ If you have a scanner, you need to convert .pdf files to into Kurzweil format, or you wish to use the KESI Virtual Printer to convert other on-screen material into Kurzweil format, you may request the use of a fully-functional Kurzweil 3000 Professional license for a 48 hour period.

If you currently have an active LearnStation license, you will need to email a "Return Code" to [librarian@vocalinks.com](mailto:librarian@vocalinks.com), along with your request for a Professional license. The Librarian will then email you a new activation code which will unlock the features of the Professional edition.

1. **From the Kurzweil 3000 "File" menu, select "Check in License-to-Go".**
2. **Click "Yes".**

**3. Click "Yes"**

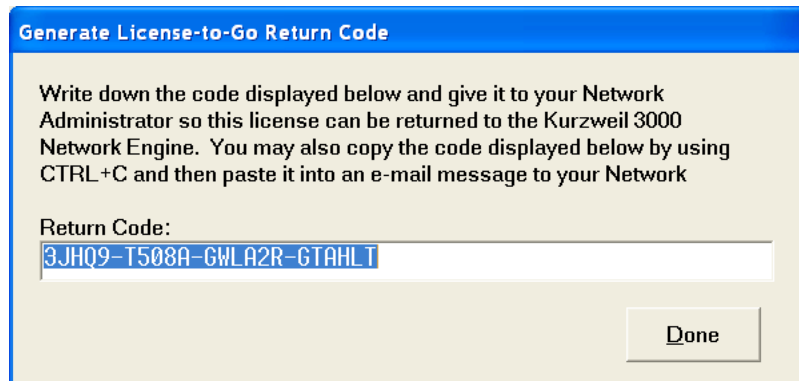

**4. Copy the Return Code and paste it into an e-mail message to the VocaLinks e-librarian: [librarian@vocalinks.com](mailto:librarian@vocalinks.com)**

**Please include your name and the type of license you are requesting to replace the one you have returned (Kurzweil 3000 LearnStation or Kurzweil 3000 Professional).**

**Within 24 hours the librarian will email you back a License-to-Go Code**

- ❖ Once you have exited out of Kurzweil 3000, its license is considered to have expired. You will need to obtain a new license in order to be able to run it again.

## Installing on a Windows Vista PC:

### LOG IN AS ADMINISTRATOR

---

### INSTALL KURZWEIL 3000 REMOTE CLIENT (WINDOWS VISTA)

---

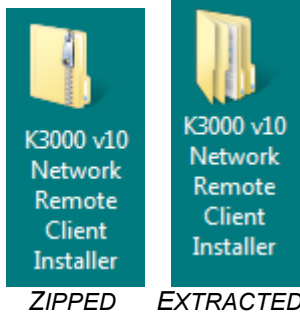

- ❖ You must log in to your PC using an Administrator Account. There will be at least one Administrator Account set up on each Windows Vista PC. You will need to use the correct User Name and Password in order to log in.

5. If you haven't already downloaded the Installer software, [Click here to download the K3000 v10 Remote Network Client Installer](#)

6. Click the "Save" button to save the file to your desktop or any other folder you are comfortable using. Do not click the "Open" button.

Depending on the speed of your internet connection, the download could take half an hour or longer.

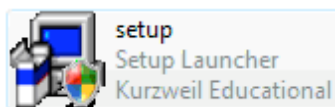

The installer will download in compressed .zip format and you will need to extract the installer before you can proceed with the installation.

7. Right-click the "K3000 v10 Network Remote Client Installer.zip" file and select "Extract All".

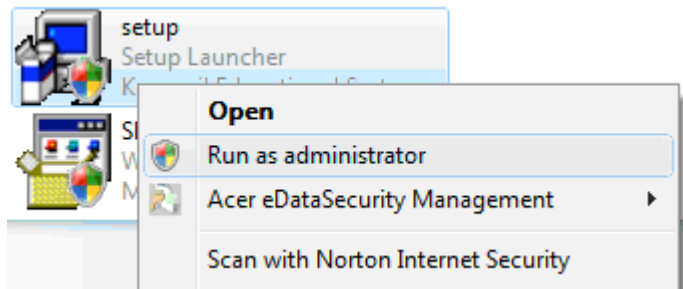

8. Extract the Installer to your desktop.

9. Double-click the "K3000 v10 Network Remote Client Installer" folder to open it up.

10. Right-Click the "setup" icon.

11. Choose "Run as Administrator"

12. You will likely see a **Security Warning** message indicating that "The publisher could not be verified". Click the "Run" button.
13. If you see a "User Account Control" message saying "An unidentified program wants access to your computer", click the "Allow" button.
14. Follow the Kurzweil 3000 InstallShield Wizard instructions onscreen.
15. Restart your computer once the installation is complete.

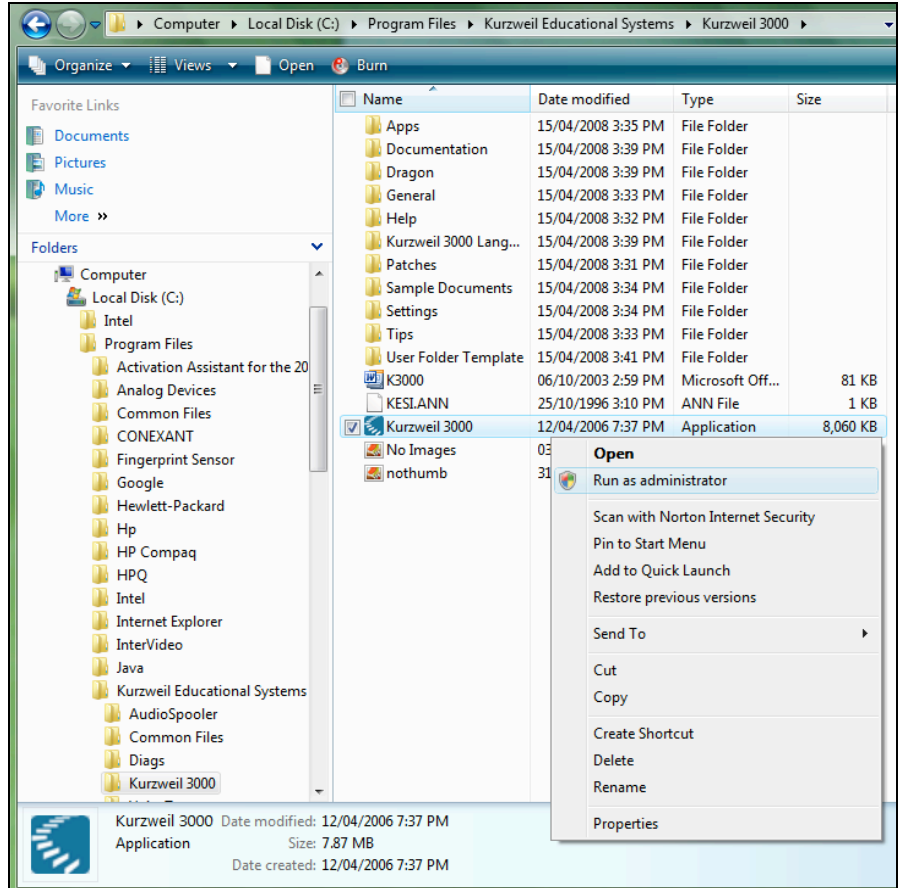

**REQUEST YOUR  
LICENSE-TO-GO CODE  
(WINDOWS VISTA)**

---

- ❖ Once the software has been installed and you have restarted the PC, you will need to request a License-to-Go Code from the Kurzweil 3000 License Librarian. To do this you will need to email the System Code from your PC to [librarian@vocalinks.com](mailto:librarian@vocalinks.com).
1. **DO NOT Double-Click** the "Kurzweil 3000" icon on your desktop.
  2. **Locate** the "Kurzweil 3000.exe" application in the following location:

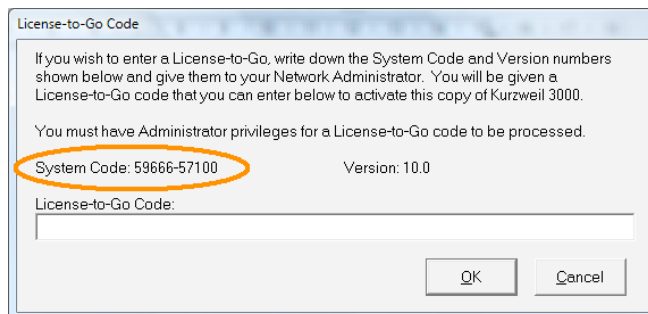

**Computer > Local Disk (C:) > Program Files > Kurzweil Educational Systems > Kurzweil 3000 > Kurzweil 3000.exe**

## Installing Kurzweil 3000 v10 Remote Client into Windows PCs

3. Right-Click the “Kurzweil 3000.exe” application icon.
4. Choose “Run as Administrator”
5. If you see a “User Account Control” message saying “An unidentified program wants access to your computer”, click the “Allow” button.

The License-to-Go Code window will open.

6. You will now need to type the System Code into an email message and send it to the License Librarian at the following email address: [librarian@vocalinks.com](mailto:librarian@vocalinks.com)

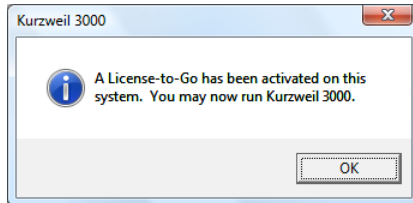

Within 24 hours the librarian will email you back a License-to-Go Code.

**ENTER YOUR  
LICENSE-TO-GO CODE  
(WINDOWS VISTA)**

---

1. **If you have exited Kurzweil 3000 since you completed Steps 1 through 5 in the "Request Your License-to-go Code" section, above, please repeat those steps now.**
2. **Copy the License-to-Go code from the email message you received, and paste it into the box in the License-to-Go Code window.**
3. **Click the OK button.**

Kurzweil 3000 should now be activated and running.

**DOWNLOAD THE  
LATEST KURZWEIL  
3000 UPDATE  
(WINDOWS VISTA)**

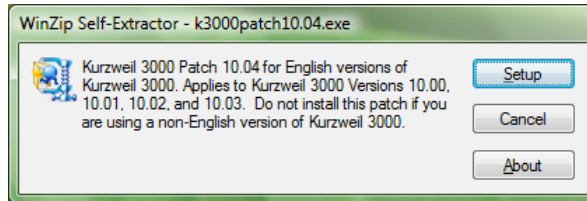

---

- ❖ Once the software has been installed, you should download the latest update to the Kurzweil 3000 software through an Internet connection. Do not use the Online Update feature in Kurzweil 3000, as it will not give you the opportunity to select "Run as Administrator" when launching the installer.

1. **In your Web Browser, go to the following address:**  
[http://www.kurzweilededu.com/downloads\\_k3000win\\_updates\\_ver10.aspx](http://www.kurzweilededu.com/downloads_k3000win_updates_ver10.aspx)
2. **Click the "Download Patch 10.04 for Kurzweil 3000 - Version 10 (7.3 MB)" link.**
3. **Save the updater into the following location:**  
C:\Program Files\Kurzweil Educational Systems\Kurzweil 3000\Patches  
If the Patches folder isn't present, create one.
4. **Right-click the k3000patch10.04.exe icon.**
5. **Choose "Run as Administrator" from the pop-up menu.**

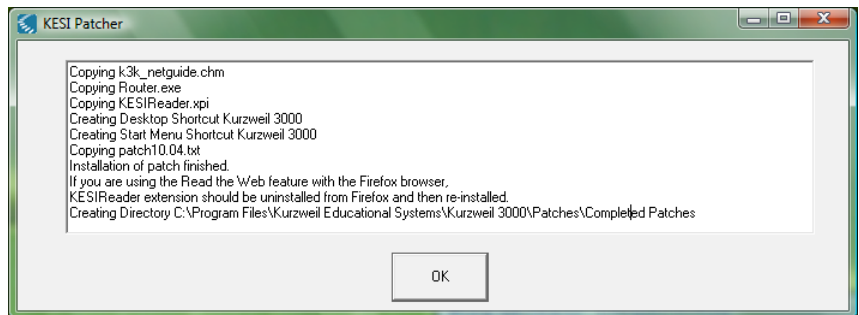

6. You may now see a "User Account Control" message that refers to "k3000patch10.04.exe". Click the "Allow" button.
7. The "WinZip Self-Extractor" window will open. Click the "Setup" button.

After a few seconds, the KESI Patcher will open.

8. Click the "OK" button to close the KESI Patcher:

9. Restart the computer after the installation has finished.
10. You can confirm that the upgrade has been correctly installed by opening the "Help" menu in Kurzweil 3000, and selecting "About Kurzweil 3000...".

The version number will be displayed in the window that appears. If the version number is 10.00, the update has not been successfully installed. You can run the patch manually. Exit from Kurzweil 3000, then right-click the icon for the following file and choose "Run as Administrator" from the pop-up menu.

**C:\Program Files\Kurzweil Educational Systems\Kurzweil 3000\Patches\k3000patch10.04**

### **RETURNING A LICENSE-TO-GO CODE (WINDOWS VISTA)**

---

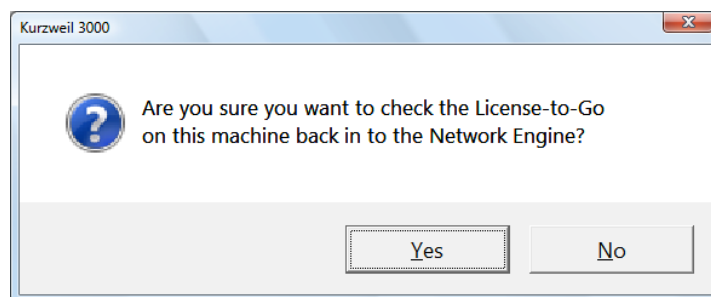

- ❖ On occasion it may be necessary for maintenance work to be done on the computer that is used to generate and manage the Kurzweil 3000 licenses. Some maintenance tasks can only be performed when no licenses are out on loan. You may be asked to generate a "Return Code" and email it to [librarian@vocalinks.com](mailto:librarian@vocalinks.com). Here are the steps to follow:

1. **DO NOT Double-Click the "Kurzweil 3000" icon on your desktop.**
2. **Locate the "Kurzweil 3000.exe" application in the following location:**

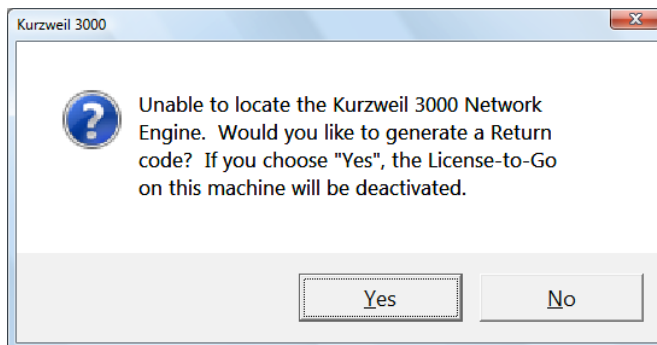

**Computer > Local Disk (C:) > Program Files > Kurzweil Educational Systems > Kurzweil 3000 > Kurzweil 3000.exe**

3. **Right-Click the "Kurzweil 3000.exe" application icon.**
4. **Choose "Run as Administrator"**
5. **If you see a "User Account Control" message saying "An unidentified program wants access to your computer", click the "Allow" button.**
6. **Open the "File" menu.**
7. **Select "Check In License-to-Go"**

8. Click “Yes”.

9. Click “Yes”.

10. Copy the Return Code and paste it into an email message.

11. Address the message to [librarian@vocalinks.com](mailto:librarian@vocalinks.com) and send it.

- ❖ Once you have exited out of Kurzweil 3000, its license is considered to have expired. You will need to obtain a new license in order to be able to run it again.

## VocaLinks Inc. Coaching & Customization

- ❖ At VocaLinks Inc. we are committed to helping people accomplish more through the use of technology. Our instructors have a wealth of experience helping students and adults to unleash the power of computer software that assists with the processes of reading and writing. We can provide individualized coaching at home or in the workplace.
- ❖ To learn more about Assistive Technology coaching possibilities, and to explore ways in which to apply the available technologies to your essential tasks, please contact us at:
